

WARRANTY INFORMATION

Activate Your Three Year Limited Warranty

www.register.suntime.com

SunTime - LinksWalker warrants to the original consumer, **upon registration** for a period of three years, that the purchased unit is free of defects in materials and workmanship under normal use. Your watch has been adjusted and electronically timed by skilled craftsmen to provide you excellent service. Properly taken care of, your watch will give you many years of quality service.

Do not submerge your watch in water; your watch is water resistant, but not waterproof. You can wash your hands while wearing the watch, but do not swim or shower with it on. Do not pull the crown out while it is wet. Do not attempt to open the case, drop the watch, or allow any unauthorized person to tamper with it. Such actions void the warranty.

This warranty applies only to the mechanism of the watch. It does not include replacement of batteries, case, straps, or parts accidentally damaged or rusted. It does not cover periodic cleaning and oiling of the watch. This warranty is void if the watch has been damaged by accident, negligence, unauthorized service or other factors not due to defects in materials or workmanship.

Should this registered, quartz analog watch develop any defect during the warranty period, please contact Customer Service at: **1-800-898-7217** for a Repair Authorization Number and instructions on how to return your product. After receiving your repair authorization number, please mail it to the address below together with a copy of your store receipt, a copy of this

warranty, your name, address, a description of what is wrong with your watch, and \$7.50 to cover return shipping and handling. You may also send us your watch after the warranty period for repair or service. Do not send any correspondence regarding the watch separately as it could be lost or misplaced. Do not include the display box when returning your watch for service. Any container you send will be discarded.

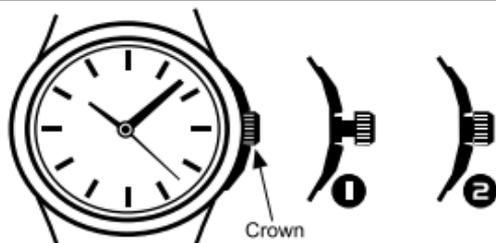

Shipping Insurance - Due to possible loss in transit, we recommend that you insure your watch, return receipt requested. You are responsible for adequately protecting your watch during shipping.

Note: Logos, indicia, and text on the watch are the registered proprietary marks of, and remain the property of, their respective entities.

Instructions

❶ To set the time, gently pull out the crown and turn.

To set the date, gently pull out the crown, ❷ push it back halfway and then turn it counterclockwise. You may also set the time ahead 24 hours and advance the date that way.
